

**List of Optional accessories / attachments for Godrej Electric (Battery Operated) fork lift
(GX 100E /GX 150E /GX 200E / GX250E / GX300E)
Prices to be offered after application study only.**

SR .NO	ATTACHMENTS	APPLICATION /FEATURES /BENEFITS/USED IN INDUSTRY
1.	Auto lift Cut off	For safety of drive motor and electric circuit ,as well as to ensure timely charging of the battery.
2.	Option of timer and electronic charger	
3.	Option of high power battery	For Continuous heavy use, or use of Hydraulic attachments or frequent traversing on gradients.
4	Auto Flow system	To increase battery life by ensuring precise top up of cells with distilled water during daily routine maintenance
5	Battery Clamp	For easy handling of battery during battery change
6.	Battery Roller Compartment	For easy of battery handling during battery change
7.	Guide Rollers fitted laterally on Flt Chasis	For operating in alignment with the drive in storage system.
8.	Automatic Drive Speed controller (beyond specified lift heights)	For safer handling of heavy loads.
9.	Lift Safety Devices	For restricting lift heights beyond specified heights.
10.	Cold storage modification.	For operations inside cold storage and in cold climates (Upto minus 25 degrees Celsius)
11.	Triple stage mast	To enter the containers or pass under low height gates.
12.	Side shifter attachment	For quick placements of pallets over each other or on shelf or in containers with minimum maneuvering.
13.	Parrot beak vertical drum handling attachment	For single or double drums handling.
14.	Fork extension pair	Available lengths:1200 / 1500 / 1800 mm length
15.	Drop bottom dumper box	Used in brick making industry, Waste disposal management and construction industry.
16.	Fixed and adjustable crane attachment	For lifting non-Palletized items with sling and hook .
17.	Paper roll clamp rotating attachments	For handling paper rolls of various sizes in printing / newspaper industry.
18.	Furnace stocking Attachment	For breaking slag in furnaces, used in steel industries.etc.

19.	Furnace charging attachment	For charging the furnace, used in steel industry etc.
20.	Shovel attachment	For shoveling operation used in mineral/powder/coal construction industry.
21.	Rotating forks attachment	For dumping operation
22.	Rotating lateral clamp	For bale handling operation in paper and textiles mills
23.	Ram attachments	For coil lifting etc used in steel&paper industries
24.	Non marking tyres	For increasing life of flooring.
25.	Enclosed operation cabin	For operation in cold storage & severely hot climate condition
26.	Load stabilizers	For crate bottle handling used in bottling plants
27.	Customized color scheme	As per customers choice
28.	Adjustable steering column	For driver comfort
29.	Fire extinguisher	For safety
30.	Tri stacker attachments	For very narrow aisle operations
31.	Fork positioners	For adjustment of forks hydraulically
32.	Towing pin	For towing operation
33.	Combi fork and side shifter attachment	For increased productivity in handling operation by reducing cycle time of handling
34.	Swinging boom attachment	For crane attachment use in narrow aisles specially in shop floors and narrow wires
35.	Load Push Pull attachment	For handling loads without Pallets, to save pallet cost optimize space in containers use of
